to the SLRPSI Family!

Practice: Northern Practice

Scope: North: Weagamow (Round Lake),
Hospitalist

Contract: Part-Time Away

Years in Practice: 0.5years

Residency: UBC

Home Base: n/a

My name is Emily Evans and I am a family doctor who is very excited about joining the team in the Sioux Lookout area! I am originally from Ottawa, where I also did my medical school training. I graduated from residency in Nanaimo BC in June 2023 and have been locuming all over northern Ontario since then doing full scope family medicine. Having always been interested in rural medicine, a long- time family friend and dedicated colleague in the north Dr. Sharon Cirone encouraged me to try locuming in the Sioux Lookout area after graduating. After completing a couple of locums including community coverage and hospitalist work, I decided to finally sign a contract because I really enjoyed the collegiality, fulfillment and sense of community working up north. I will be spending most of my time in Round Lake but may pick up a few hospitalist weeks here and there. I am looking forward to establishing a deeper connection with the Round Lake community and getting to know all of you!

Admittedly, I have probably been working too much since graduating and am still trying to find a good balance in my personal life. In between work, I like to be outside walking my dog/hiking/camping, do lots of travelling, cook, and spend time with family and friends. I do not currently have a dedicated home base and have been enjoying spending my days visiting friends and family between Ottawa, Toronto and anywhere on vacation!

Looking forward to working with you all!
